

Datasheet

NR-24 Smart

THE SMART FINGER PROTECTION FROM ATHMER EFFECTIVELY PREVENTS INJURIES TO FINGERS ON DOORS

- / smart hook-in technology for quick release
- / safe usage thanks to improved door gap cover
- / end caps prevent impact edges with a radius > 2 mm (DGUV)
- / Compact design
- / tamper-proof and concealed screw connection
- / protective roller blind pulls automatically to constant tension
- / TÜV/GS certified according to EN 16654

TECHNICAL DATA

Hazard point	secondary closing edge lock side
Suitable for fire protection	yes
Weatherproof	not weatherproof
Door leaf material	aluminium, timber, PVC, metal
Frame material	aluminium, timber, PVC, metal
Door leaf geometry	rebated, flush
Carrier material	aluminium
Surface	anodised, colour-coated
Standard surface colours	C-0, RAL9016
Cover material	synthetic fibre
Cover colour	black
Protective cap	yes

DIMENSIONS

Standard length	1,925, 2,050 m For doors with BR2125 we recommend a delivery length of 2050 mm
Fixed lengths available	no
Extension length	260 mm

FIXING

Profile fixing	invisible
Fixing	screw fixed
Disassembly	unhook
For retrofitting	yes

PERFORMANCE AND CERTIFICATION

suitable for fire protection	yes
certified by TÜV GS	yes
Hygiene resistance	yes
