Hender

Erwin Heimbuchner Operating Testing Officer Security/Safety Testing

**Basis** EN 12209:2016

Test standard: EN 12209:2016 Correspond/s to the national standard/s (e.g. DIN EN)

#### Representation

#### Instructions for use

This test report demonstrates serves to the requirements for locks according to EN 12209:2016

## Validity

The data and results given relate solely to the tested/described specimen. The classification will be valid as long as the product remains unchanged and the above bases have not changed. The result can be extrapolated in accordance with the specifications given in the product standard under the manufacturer's responsibility. This test/evaluation does not allow any statement to be made on further characteristics of the present structure regarding performance and quality, in particular the effects of weathering and ageing.

## Notes on publication

The ift-Guidance Sheet "Advertising with ift test documents" applies.

The cover sheet cannot be used as an abstract.

The report contains a total of 22 pages
